

AgWaterTAP - Needs Assessment

Start of Block: Default Question Block

0 **AgWaterTAP:** Agricultural Water Management Technical Assistance Program - an Oregon State University Research & Extension Initiative **Who are we?** We are an Oregon State University team of researchers providing technical assistance through research, outreach, and engagement activities for improving agricultural water management in Oregon.

Mission: Support Oregon's agricultural community by providing collaborative, research-based technical assistance and resources that optimize water management and maintain thriving farms.

Vision: A future where Oregon's growers, water managers, researchers, and communities work together for sustainable, innovative, and equitable agricultural water solutions. Today, we'd like your input to **help us prioritize our research and Extension efforts** across the state. What do you see as the **most important areas** we should focus on to best support farmers, researchers, and policymakers?

Q1 But first, please tell us a little bit about yourself. Which county or counties do you work in?

Q2 What is your area(s) of expertise?

Q3 What is the general size of operation (number of acres) you work/provide services for?

Q4 What are the primary crops you work with?

Q5 What are the **MOST IMPORTANT** areas that we should prioritize to best assist farmers, researchers, and policymakers? The color coding represents the following areas - Tools Development - Research and Education - Outreach and Engagement From the list below, please select only **2 topics** in which AgWaterTAP should focus and mark them with a star.
